15-02-15.

Dear Parents,

Ballaghlea National School is currently working on achieving its 6th Green Flag. The theme for this flag is **Globalisation; Litter and Waste.** We are aiming to reduce waste in Ballaghlea and we need your help. After completing a waste survey in the school it was noted that most of the school's waste comes from our lunches. We would like children to bring in waste free lunches as far as possible.

Ideas for waste free lunches

Sandwiches/fruit in reusable containers

Whole fruit

Drinks in reusable drink bottles

Food in recyclable containers

Don't include

Tinfoil or clingfilm

Non-recyclable wrappers

Also as part of reducing waste we are now collecting household batteries, which will then be collected by the WEEE company. If you have any used batteries send them into the school.

Thanking you in advance,

The Green School Committee (Fifth Class Pupils).
